CONTENTS OF VOL. IV.

NUMBER XIII.

Art. I. Observations on Endemic Fever, delivered as the Annual Address before the Medical Society of the State of New-York, at Albany, February 2, 1825. By Alexander Coventry, M. D. 9

Art. II. An Account of the Small-pox, Modified Small-pox, and Chicken-pox, which prevailed in the City of Albany, during the months of February, March, and April, 1824; with Remarks upon the identity of these Diseases, and upon the anti-variolous power of Vaccination. By Lewis C. Beck, M. D. &c. - - - - 31

Art. III. Remarks on Menstruation: being an attempt to show that the generally received doctrines on this subject are not only untrue, but inadequate to explain some of the most interesting phenomena connected with that process. By James R. Manley, M. D. - 52

Art. IV. An Account of the Topography, Weather, and Diseases of Nassau, Island of New-Providence, Capital of the Bahamas, West-Indies. By P. S. Townsend, M. D. of New-York, - - - 68

Art. V. Report of Diseases received in the New-York Hospital during the months of August, September, and October, 1824. By Samuel W. Moore, M. D. of New-York, - - - - 78

Art. VI. A Case of Poisoning by Laudanum, successfully treated by means of Jukes's Syringe. By Samuel W. Moore, M. D. - 91

REVIEW.

Art. I. Elements of the Etiology and Philosophy of Epidemics. In two parts. By Joseph Mather Smith, M. D. &c. - - - 93

Art. II. Anatomical Investigations, comprising Descriptions of various Fasciæ of the Human Body; the Discoveries of the manner in which the Pericardium is formed from the Superficial Fasciæ; the Capsular Ligament of the Shoulder Joint from the Brachial Fasciæ, and the Capsular Ligament of the Hip Joint from the Fascia Lata. To which is added, an Account of some irregularities of Structure and Morbid Anatomy; with a Description of a new Anatomical Table. By John D. Godman, M. D. &c. - - 106

Art. III. An Exposition of the Dangers of Interment in Cities; illustrated by an Account of the Funeral Rites and Customs of the Hebrews, Greeks, Romans, and primitive Christians; by ancient

and modern Ecclesiastical Canons, Civil Statutes, and Municipal Regulations; and by Chemical and Physical Principles. Chiefly from the works of VICQ D'AZYR of France, and Professor SCIPIONE PIATTOLI of Modena. With Additions, by FELIX PASCALIS, M. D. 113

Art. IV. Anales de la Academia de Medicina de Buenos Ayres. No. I. Agosto de 1823, - - - - - - - - - 121

Annals of the Academy of Medicine of Buenos Ayres. No. I. August, 1823.

MEDICAL AND PHILOSOPHICAL INTELLIGENCE.

FOREIGN.—Rupture of the Vena Cava.—Hydrocyanic Acid in Tænia.—Common Salt to correct the fœtor of Cancerous Sores.—Substitute for Castor Oil.—Efficacy of Nitrate of Potass in the treatment of Hemorrhage.—Sugar in the Blood of Diabetic Patients.—Mercury in the Urine.—Utility of fresh Vegetables in Fever, when placed near the Patient.—On the active Principle of Colocynth (Colocyntine).—Experiments made upon six Decapitated Robbers.—On the detection of Hydrocyanic Acid in the Bodies of Animals poisoned by it.—Active Principle of the Daphné Alpina.—Case of Fracture within the Capsular Ligament.—Case of Poisoning by Oxalic Acid.—On the danger of exhibiting Iodine.—Extirpation of the Uterus.—Pathology of Phlegmasia Dolens.—Case of softening of the Brain.—Anatomical Structure of the Trachea and Bronchia.—Hydrocyanic Acid, - - - - 123–138

DOMESTIC.—Transactions of the Medical Society of the State of New-York, for the year 1825.—University of the State of New-York.—Medical Schools of the United States, and number of Pupils.—Results of Meteorological Observations for 1824, kept at Albany.—Civiale's Lithontriptor.—Case of Poisoning, - 138–142

Bibliographical Notices, - - - - - - - - - 142

Notices, &c. - - - - - - - - - - - 144

NUMBER XIV.

Art. I. On Artificial Pupil. By EDWARD DELAFIELD, M. D. Surgeon to the New-York Eye Infirmary, and Lecturer on Diseases of the Eye, (*with a plate*) - - - - - - - - - 145

Art. II. Observations on the best method of diminishing and extracting the head of the Fœtus. By ALEXANDER H. STEVENS, M. D. 181

Art. III. An Account of the Topography, Weather, and Diseases of Nassau, Island of New-Providence, Capital of the Bahamas, West-Indies. By P. S. TOWNSEND, M. D. of New-York. (Continued from page 78.) - - - - - - - - - 185

Art. IV. Observations on the causes of Endemic Fever; in a Letter addressed to ALEXANDER COVENTRY, M. D. late President of

the Medical Society of the State of New-York. By Westel Willoughby, M. D. &c. - - - - - - - - - 204
Art. V. A Dissertation on Ergot, read before the Essex District Medical Society, New-Jersey, March 1825. By Dr. John Ward, 212
Art. VI. Case of Inflammation of the Theca Vertebralis. By John Kearny Rodgers, M. D. &c. - - - - - - - 219
Art. VII. An attempt to ascertain the value of the Vaccinal Virus, as a means of lessening the susceptibility to variolous diseases; with Remarks on the most probable origin and nature of the Small-pox. Read before the County Medical Society of New-York, April 11, 1825; by Felix Pascalis, M. D. &c. - - - - - - 222
Art. VIII. On Fissure of the Rectum, attended with constriction of the Anus. By Alexander H. Stevens, M. D. - - - 242

REVIEW.

Art. I. Transactions of the Medical Society of the State of New-York, for the year 1825, together with the Annual Address, by Alexander Coventry, M. D. President of the Society, - - 245
Art. II. A Physiological Essay on Digestion. By Nathan R. Smith, M. D. &c. - - - - - - - - - - - 255
Art. III. Tables of Chemical Equivalents, Incompatible Substances, and Poisons and Antidotes; with an Explanatory Introduction. Collected and arranged by Robert Best, A. M. &c. - - - 264

BIOGRAPHY.

A Biographical Memoir of Cornelius E. De Puy, M. D. Member of the New-York Historical Society, &c.; read before the Physico-Medical Society of New-York, at its anniversary meeting on the 8th of August, 1822. By Joseph M. Smith, - - - - 266

MEDICAL AND PHILOSOPHICAL INTELLIGENCE.

Foreign.—On the presence of water in the Lungs of drowned persons.—Cicatrix of the Heart.—Oil of the Euphorbia Lathyris.—Professor Autenreith's Opinion of Syphilis.—Diagnosis between Irritation and Inflammation of the Mucous Membranes of the Bronchiæ.—Fatal Asthma from affection of the Glottis, - 277–282
Domestic.—Interments in the City of New-York.—Absorption of the Cutis.—Case of Hæmatemesis accompanying the Menstrual Discharge.—Medical Commencement in the University of New-York.—Prize Essay on Consumption.—Linnæan Society of New-York.—Rensselaer School.—Medical School of the University of Vermont.—Delafield's Iris Knife, - - - - - 282–286
Bibliographical Notices, &c. - - - - - 287–288

NUMBER XV.

Art. I. A Memoir upon the Ophthalmia which recently prevailed in the Army of the Netherlands. By the Chevalier Joseph Romain Louis de Kirckhoff, M. D. &c. &c. - - - - - 289
Art. II. On the Epidemic Purulent Ophthalmia which appeared recently in the Western part of the State of New-York. By C. B. Coventry, M. D. of Utica, State of New-York, - - - 299
Art. III. Cases in Morbid Anatomy. By A. L. Peirson, M. D. of Salem, Mass. (*with a plate*) - - - - - - - - 308
Art. IV. Remarks on Amputation. By Nathan Smith, M. D. Professor of the Theory and Practice of Physic and Surgery in Yale College, (*with a plate*) - - - - - - - - 313
Art. V. Cases of Spina Bifida. By Ansel W. Ives, M. D. of New-York, - - - - - - - - - - 321
Art. VI. An Account of an Epidemic Erysipelatous Fever prevailing in Westchester and Putnam Counties, in the State of New-York. By James Fountain, M. D. &c. - - - - - 330
Art. VII. A New Theory of Conception, founded upon well-known laws of Nature, in accordance with which the principles of Superfœtation are explained, and facts adduced to prove its repeated occurrence. By John Stearns, M. D. &c. - - - - 360
Art. VIII. A Case of Exostosis of the Os Ischium impeding Delivery. By Charles Drake, M. D. - - - - - - 369
Art. IX. Account of a Case of injury of the Knee Joint. By William F. Seaman, M. D. of New-York, - - - - - 372
Art. X. Account of a Case of Conversion of Disease. By John W. Gloninger, M. D. of Lebanon, Pennsylvania, - - - 376

REVIEW.

Art. I. A Compendious System of Midwifery, chiefly designed to facilitate the inquiries of those who may be pursuing this branch of study. Illustrated by occasional Cases. With thirteen Engravings. By William P. Dewees, M. D. Lecturer on Midwifery, &c. &c. 378
Art. II. Medical Facts and Inquiries, respecting the causes, nature, prevention, and cure of Fever; more expressly in relation to the Endemic Fevers of summer and autumn in the Southern States. Together with a History of the Bilious Remitting Fever of Alabama, as it appeared in Cahawba and its vicinity in the summers and autumns of 1821 and 1822. By Jabez W. Heustis, M. D. 394
Art. III. Researches and Observations on the use of Phosphorus in the treatment of various Diseases. By Daniel Lobstein, M. D. 409

MEDICAL AND PHILOSOPHICAL INTELLIGENCE.

Foreign.—On the Insensibility of the Nerves of the Senses.—On the action of the Heart.—Of the healthy appearance of the Mu-

cous Surface of the Digestive Organs.—Brandreth's Case of Hydrophobia.—Renwick's Case of Hydrophobia.—Various morbid alterations in new-born Infants.—Treatment of Cynanche Trachealis.—Case of Tympanites Pericardii.—Case of Phlegmasia Dolens.—Uterus, laceration of, in Parturition.—Case of Cæsarian Operation.—Euphorbia Lathyris.—Mode of detecting spots of Blood, - - - - - - - - - - - 416–428

Domestic.—Examination of a work entitled, "Recherches pratiques sur la Fievre Jaune." By Felix Pascalis, M. D.—Jefferson Medical College.—Boylston Prize.—Travers on the Eye, - 428–434

Bibliographical Notices, - - - - - - - - - 434

Notices.—University of the State of New-York: College of Physicians and Surgeons of New-York.—College of Physicians and Surgeons of the Western District of the State of New-York.—Institution for Medical Examinations and Lectures.—Lectures on Anatomy.—Lectures on Diseases of the Eye.—State Medical License, - - - - - - - - - - - 438–440

To Readers and Correspondents, - - - - - - - 440

NUMBER XVI.

Art. I. A Dissertation on the Question, "To what extent has the Vaccine Disease been found to be a preventive of Small-pox?" By John Bell, M. D. of New-York, - - - - - - - 441

Art. II. On the Proximate Cause of Hydrocephalus Internus. By John Stearns, M. D. of New-York, - - - - - - 469

Art. III. Observations on Fractures of the Femur, with an account of a new Splint. By Nathan Smith, M. D. C. S. M. S. London, Professor of Surgery, &c. in Yale College, (*with a plate*) - 474

Art. IV. Observations on the Prenanthes Altissima. By Dr. James Hubble, of Westchester, New-York, - - - - - - 484

Art. V. On the employment of Calomel and Opium in Dysentery. By Dr. Moore Hoit, of Peekskill, New-York, - - - 487

Art. VI. An Account of a new Instrument for making Artificial Pupil and cutting up the Lens. By John Hills, M. D. of South Carolina, (*with a plate*) - - - - - - - - - 490

Art. VII. An Account of a Disease which prevailed in the New-York Penitentiary, during the months of September, October, and November, 1825; in a Letter to the Editors. By Theodore F. King, House Surgeon to the Penitentiary, - - - - - 493

Art. VIII. Account of a Disease now prevailing at Puerto Cabello, in the Intendancy of Venezuela, Colombia. By J. H. C. Miller, M. B. of the Colombian Navy, - - - - - - - - 496

Art. IX. Observations on the Treatment of Cephalitis, or Hydrocephalus Internus. By Dr. WILLIAM HIBBARD, of New-York, - 507
Art. X. Case of a Tumour in the Antrum Highmorianum, extirpated by CLARK WRIGHT, M. D. &c. - - - - - 514
Art. XI. Case of difficult Parturition, succeeded by a fistulous communication between the Vagina and the Neck of the Bladder, and by a closure of the Os Uteri. By CHARLES HOOKER, M. D. Read at a meeting of the New-Haven County Medical Society, April 18th, 1825, - - - - - - - - - - 516
Art. XII. Case of Carditis, with Dissection. By JOHN J. GRAVES, M. D. Physician to the New-York City Dispensary, - - - 519

REVIEW.

Art. I. A Treatise on the Physical and Medical Treatment of Children. By WILLIAM P. DEWEES, M. D. &c. - - - - 522
Art. II. Typhus Syncopalis, Sinking Typhus, or the Spotted Fever of New-England, as it appeared in the Epidemic of 1823, in Middletown, Cennecticut. By THOMAS MINER, M. D. - - - 544
Art. III. A Lecture delivered at the opening of the Medical Department of the Columbian College, in the District of Columbia, March 30, 1825. By THOMAS SEWALL, M. D. - - - - - 555

MEDICAL AND PHILOSOPHICAL INTELLIGENCE.

FOREIGN.—On the Section of the Pneumogastric Nerves.—Injection of Air into the Veins.—Structure of the Nerves.—Mean duration of Intermittent Fever.—Cure of a Hydrophobic Patient.—Diagnostic of Venereal Gonorrhœa.—Enlargement of the Heart.—Tracheotomy in diseased Larynx.—Treatment of Ganglion.—Virtue of the Black Pepper as a Febrifuge.—Poisoning by Arsenic and Sublimate.—Treatment of Scrofulous Ulcerations.—Sulphate of Quinine.—Vomiting produced at will by pressure on the region of the Stomach, - - - - - - - - 564–575
DOMESTIC.—Account of a Case in which both Carotids were successfully tied by Dr. Macgill of Maryland.—Account of a new Instrument for the extraction of Coins and other foreign substances from the Œsophagus.—Smith's new Work on Surgery.—Troy Medical Institution.—Medical Society of the County of N. York, 576–579
Bibliographical Notices, - - - - - - - - - 580
NOTICES.—University of the State of New-York.—New-York City Dispensary.—Academy of Medicine of New-York.—State Medical License.—A Card, - - - - - - - - 583–584
To Readers and Correspondents, - - - - - - - 584
